

**Project Name: Marietta Memorial Hospital****Project Location: Marietta, OH****Project Overview**

Marietta Memorial Hospital's South Pavilion addition included two floors, containing an intensive care unit, surgical rooms, scope rooms, exam rooms, offices, and nurse stations. This project was driven by the hospital's surrounding area population increase and demand for the hospital to improve upon its operational strategy in order to maintain its positive patient experience. The onsite expansion allowed them to meet program goals at a significantly reduced cost, rather than undertaking costly demolition and replacing the existing building with a new build. Stonecreek Interior Systems provided and installed the furniture solutions.

- Case Systems Plastic Laminate Case Work
- Solid Surface Corian Countertops
- Stainless Steel Countertops

Project Statistics

- Project Size: 225,000 sq. ft.
- Total Construction Budget: \$50 million
